

Body $\varnothing$ [mm]	Tube $\varnothing$ [mm]		Pinching force [kg]	Max pressure [bar]	Mass [kg]	Coil type	Voltage	Power [W]	Valve type	Order code
	inner	outer								
30	6	9	1.4	1	0.42	TM35	24 V DC	18	DLC6	300506

**FEATURES:**

- Valve designed for smooth, turbulence-free shut off of liquid and gaseous fluids
- Bi-directional flow is possible
- No valve parts in contact with fluid - only tubing.
- Maximum pressure depends on tube hardness and elasticity - use only soft (50 Shore A) silicone or similar tubes.
- Aluminum body, polyamide pinching element.
- Tubing is not supplied with valve
